

Get on the road with **Jan Zander Design**'s newest fountain pen in his "Inspired by..." limited edition series of fountain pens. The Jan Zander Design Inspired by...Mercedes Silberpfeil W 125 pays tribute to the Mercedes W 125 Silver Arrow automobile. The fountain pen is composed of high-quality aluminum and features the characteristic lines and aerodynamic elements of the iconic racing car, and the highly polished body also reflects this legendary car's racing history. Hand-turned by Zander in his German studio, the pure aluminum is finely ground and then polished. A platinum-plated clip and cap finial logo with black lacquering add further touches of elegance. Horizontal grooves on the barrel, an ebonite section with horizontal ring engraving, and red lacquer numerals on the cap that match the pen's edition number finish this pen's aesthetics. The cartridge/converter-filling fountain pen has a bicolor 14 karat gold nib in extra-fine through double-broad and is limited to 50 pieces, and customers can choose their own number based on availability.

MSRP: \$3,500
